

IPL Data

Section - A

Step 1: Download the complete data from <https://www.kaggle.com/manasgarg/ipl>

Step 2: Load all the data (1 or more files) into Pandas using the appropriate format.

Step 3: Using Matplotlib plot the data accordingly.

1. Plot a histogram for "venue" TODO: Group by Seasons
2. Filter the Matches by id for the period match id number 600 - 650, and plot histogram for "venue"
3. Plot the aggregated Number of Runs per Match, first by Venue followed by Innings (Refer to Stacked Bar Charts)

Section - B

Study the data with you and in consultation with your mentor, create a series of plots to justify an analysis of a proposed story.
